AI product manager with a consumer growth record: 5+ years across product and analytics at Flipkart (400M+ users), Meesho, and Tata 1mg. Owned research and targeting for Flipkart Black (~500K paid members in 4 months), shipped Treats rewards to ~20M loyalty members, and lifted Meesho seller activation 65%. Took GenAI video 0 to 1 in 15+ languages; built VaultLedger, an eval-gated on-device AI assistant Cent Capital open-sourced. CMU MS Product Management, Dec 2026.

PROFESSIONAL EXPERIENCE

AI Product Manager Intern, Cent Capital | AI fintech | Case study — Jun 2026 to Aug 2026

- Proposed and built VaultLedger 0 to 1, an on-device AI assistant for financial documents that Cent Capital open-sourced.
- Defined release gates (golden set, LLM judge, regression check) for model and prompt changes; held back those that missed.
- Evaluated six local models on 480 scored answers against preset bars; kept the 8B model no alternative beat.
- Improved retrieval ranking 58% (MRR 0.50 to 0.79) with hybrid search and reranking on an 80-question golden set.
- Blocked 6 of 6 planted data leaks between test users with isolation guardrails, plus PII redaction and answer checks.

Product Manager, Flipkart | Walmart-owned e-commerce, 400M+ users | Case study — Dec 2024 to Jan 2026

- Grew Flipkart Black 2.5x to ~500K paid subscribers in four months after it replaced the prior premium tier; owned research, positioning, and targeting.
- Launched Treats gamified rewards to ~20M loyalty members; purchase frequency rose 8% and retention 3% after launch.
- Authored the partner case shown to Google and Netflix; YouTube Premium joined Black with 350K activations in 3 months.
- Built the model behind Flipkart's $50M loyalty budget and a 100-metric loyalty dashboard reviewed by the CEO.

Co-Founder, Froker | food-discovery startup — Jun 2024 to Dec 2024

- Co-founded a food-video discovery app and grew it 0 to 1 to ~20K users by linking dishes on screen to nearby restaurants.

Product Manager (Analytics), Tata 1mg | Tata Group health-tech | Case study — Jun 2023 to Jun 2024

- Boosted conversion 3% on ~50 medicine pages by taking GenAI explainer videos 0 to 1 in 15+ languages, with medical review.
- Saved $145K a year in call-center costs with an automated WhatsApp prescription flow; 80% of cases needed no agent.
- Generated 12% more coupon redemptions by redesigning the coupon page to rank applicable offers by cart savings.

Associate Product Manager, Meesho | marketplace onboarding ~600K sellers a year | Case study — Jun 2022 to Jun 2023

- Raised new-seller activation 65% (17% to 28%) at the same per-seller cost by owning Incentive V2, built on a 3-step ad-credit ladder.
- Lifted incentive banner click-through 2.5x (18% to 45%) by A/B testing redesigns shaped by 15 to 20 seller interviews.
- Reduced catalog upload drop-off 7 points by shipping image-recognition prefill with data science.
- Shipped GPT-written seller product descriptions as product owner in 2023, generated from image labels and product attributes.

Analyst, Finance, ShareChat | social media platform, 150M+ monthly users — Jun 2020 to Jun 2022

- Analyzed ad frequency and format A/B tests that lifted fill rate 23% and ad revenue 12% month over month.
- Ran the CFO's weekly ad-revenue review for 18 months as the sole SQL analyst for a 20-person finance team.

EDUCATION

MS, Product Management, Carnegie Mellon University (Tepper) | GPA 3.78 — Jan 2026 to Dec 2026

B.Tech, Electronics and Communication, Manipal Institute of Technology — Jun 2016 to Jun 2020
